

ORGANISATION 4.0

ARE YOU READY FOR THE FUTURE?

The world is changing at breath-taking speed before our very eyes. Everything and everyone is becoming interconnected. You too are being swept along by this evolution.

ViCre specialises in preparing your organisation today for what tomorrow will bring, by developing strategy, knowledge and leadership. ViCre stands for Vision Creation, established in 2004, providing high-impact business consulting to clients in Europe and the US.

ORGANISATION 4.0.

Get ready for the future by making your future organisation a networked organisation. An organisation where the hierarchical pyramid no longer holds sway, but one where a flat structure prevails. Where your peer is no longer your competitor, not a barrier on the way to the top of the pyramid, but your internal customer or internal supplier. Organisation 4.0? An organisation where hierarchy, organisation

charts and job descriptions have made way for a network: open, flat, fast.

SAME INTERNAL & EXTERNAL SPEED

A networked organisation moves at the same speed as traffic on the digital highway. So that means fast, very fast. But you don't notice it because the two speeds are the same.

Organisation 4.0? An organisation where transparency and trust are the norm, going hand-in-hand: an organisation geared up for the future.

A SPIDER'S WEB FULL OF NODES

A network organisation is not unlike a spider's web. It's packed with intersections. Every intersection presents an opportunity, like a fork in a road: should I supply or

should I receive? Am I a customer or a supplier? Yes or yes? It makes no difference, provided that you offer added value and leverage your talents.

Organisation 4.0? An open organisation, with latitude for creativity.

VICRE WILL GET YOU READY

ViCre works with companies on building a sustainable future and supports CXOs in evolving into a network organisation, a 4.0 organisation. With balanced investments, in talent and in technology.

Organisation 4.0? Learning how to work in a network. Learning how to think in terms of added value. Learning to rely on the incredible strength of internal customer-supplier relationships.

ORGANISATION 4.0: HYPE OR TREND?

Tomorrow the world will look different. A digital network will mushroom before our very eyes: faster and faster. And the future? Impossible to predict. But one thing is certain: if you close your eyes to what is changing in the outside world, you will have a rude awakening. You can prepare by developing a network organisation at your company. Hype or trend? A trend, unquestionably, a unique opportunity to get ready for the changing future on the horizon. So wake up, get ready and start dreaming. Tomorrow's world will be different, and you will be part of it.

BUSINESS OPPORTUNITIES

Authenticity, resilience, continuity and sustainability are virtues that ViCre sees and creates within and outside an organisation. Do you want to be part of the new world where growth & innovation are key? Or do you want to take the next step with your organization? Send an e-mail to Annelies.helsen@vicre.be or phone 0032 (0)14 26 12 39. www.vicre.eu
